DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see p.5, filed 10/14/08, with respect to 101 and 112, 2nd paragraph rejections have been fully considered and are persuasive. The rejections of the claims have been withdrawn.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, the claim recites "... a communication system using Automated Repeat Request (ARQ) with Incremental Redundancy (IR)...". However, the claim does not further recite how the steps of providing, waiting and transmitting are performed in order to perform the method for transmission of information in the communication system using ARQ with IR. Therefore, the claim fails to particularly point out and distinctly claim the subject matter.

Claims 2-6 are rejected as applied above for failing to cure the deficiency above.
